

Felt Christmas Bell

Hand-sewn felt ornament • A4 printable pattern

A golden bell with a deep green bow brings a lovely traditional touch to a tree. The little cream clapper is made from felt, so there is no metal bell to find.

PROJECT AT A GLANCE

Beginner

Approx. sewn size: 9.5 × 11.2 cm (W × H), excluding the ribbon loop.

5 unique pattern pieces; 9 felt pieces to cut.

Use 1-1.5 mm felt, matching thread, embroidery floss, a hand needle, scissors, 16 cm of narrow ribbon and a little filling.

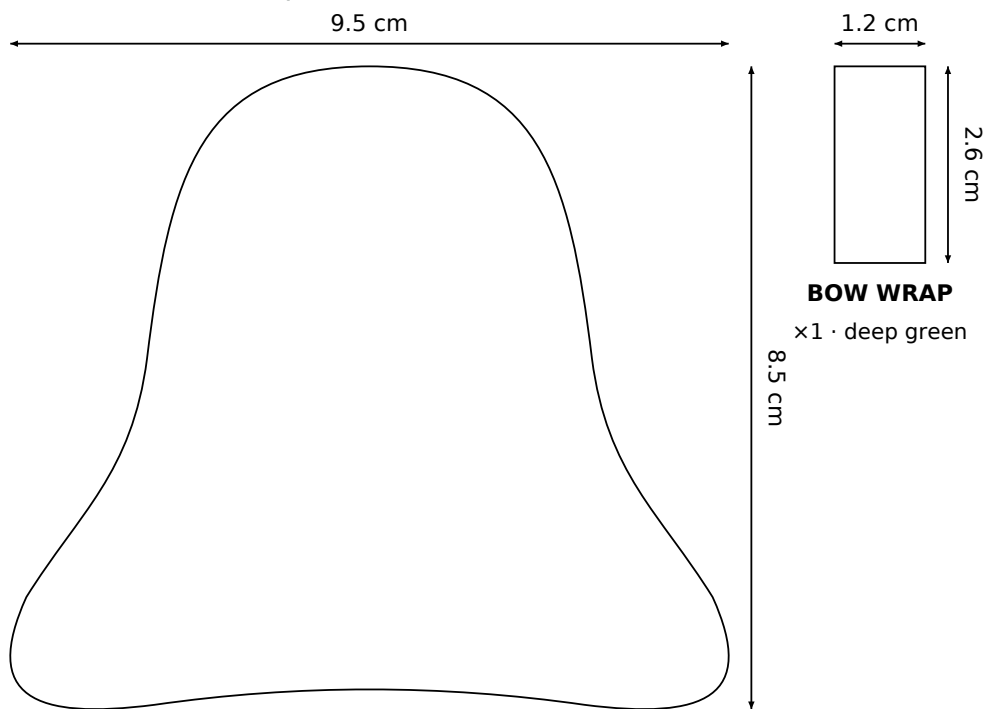

A LITTLE TIP

Keep the clapper flat so it hangs neatly beneath the bell.

Print page 2 only when you just need the cutting pattern.

TEST SQUARE

Check this square with a ruler before cutting felt. It must measure exactly 5 × 5 cm.

One outline per unique piece. Cut the number marked. Cut on the solid outer line. No extra seam allowance. Work blanket stitch about 2 mm inside cut edges; applique before joining the body.

Finished size is approximate after light stuffing. Decorative ornament only, not a toy.

Felt Christmas Bell

Before you start

Print the pattern page at 100% and measure the test square. Cut the stated number of pieces. Put the wrong sides together for blanket stitching; the cut edges stay visible.

Cutting list

Bell body: ×2 in gold (front and back)

Bow: ×2 in deep green

Bow wrap: ×1 in deep green

Clapper: ×2 in cream

Cheek: ×2 in pink

Placement guide

Not a cutting template

- 1 Sew the two clapper circles together without stuffing. Applique the cheeks on the front bell at the positions in the placement guide; embroider the eyes and smile.
- 2 Place the clapper behind the lower center of the bell, with its top at 8.8 cm from the top of the complete design. About 1.2 cm extends below the bell. Baste the hidden upper part to the back of the front piece.
- 3 Place the bell front and back wrong sides together, sandwich both ends of a 16 cm ribbon at the top with 1 cm tucked inside. Blanket-stitch 2 mm from the edge, leaving a 2 cm opening at one side. Add a thin layer of filling and close.
- 4 Sew the two bow pieces together flat. Wrap the 1.2 × 2.6 cm strip around the narrow middle, overlap its ends on the back by about 6 mm, and tack firmly.
- 5 Tack the bow to the bell top, centered, with its bottom 7 mm over the bell body. Use several small hidden stitches through the bow center.

Finish securely, trim loose threads and keep small parts away from young children.
